WORK EXPERIENCE

SOFTWARE DEVELOPER INTERN

Vigo Techno world Pvt Ltd

DURATION: [MAY 2023] - [JAN 2024]

Description: As a Full Stack Java Developer intern, I played a key role in developing an Online Event Management System, a comprehensive platform designed to streamline the process of organizing and managing events. The project required a range of skills, from designing the user interface to implementing the server-side logic.

Responsibilities Back-End Development: Utilized Spring Boot to design and implement the server-side functionalities, creating RESTful APIs for seamless communication with the front-end Integrated with a MySQL database to store and retrieve event information, user data, and registration details.

EDUCATION

Full stack development

ARC TECHNOLOGY Certified Professional, Full stack Java Developer
(Issued by ARC technology) Date of Certification: 2023

During my full stack development studies, I successfully completed several projects showcasing my skills in various technologies.

Project

Hotel Booking platform

- I created a hotel booking application using Java, Servlet, JSP, and MySQL.
- Developing a shopping web application using HTML, CSS, and JavaScript.
- I delved into modern front-end development and built a travel application using ReactJS. These projects have equipped me with a diverse set of programming abilities and a well-rounded understanding of web development

.E- Commerce platform

- ROLE: FULL STACK JAVA DEVELOPER
- Technologies: JAVA, Spring Boot, MySQL, RESTful API.
